Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 12-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

-The last line of paragraph 17 should be deleted.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied in paragraph 3 of the previous office action.

5. Claims 12-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied in paragraph 4 of the previous office action.

Art Unit: 1763

6. Applicant's arguments filed 11-28-05' have been fully considered but they are not persuasive.

Applicant argues the following points regarding the examiner's rejection of their claimed subject matter.

-Newly amended claims 1-10 are patentable over the references as applied in paragraph 3 of the previous office action. Paragraph 3 of the previous office action rejects applicant's claims over Inoue et. al. further in view of Kato et. al. Kato et. al. does not teach the usage of colloidal silica in their cmp slurry as is now claimed in claims 1-10. Rather, Kato teaches the usage of fumed silica in their cmp slurry.; and

-Newly presented claims 12-17 are allowable over the references which were used to reject applicant's claims in paragraph 4 of the previous office action since the examiner failed to reject claim 2 over paragraph 4 in the previous office action.

The examiner must disagree.

-Newly amended claims 1-10 are not patentable over the references as applied in paragraph 3 of the previous office action contrary to what applicant argues.

Paragraph 3 of the previous office action rejects applicant's claims over Inoue et. al. further in view of Tanaka et. al. Tanaka et. al. does teach the usage of a cmp slurry with colloidal silica. Applicant seems to be confusing paragraph 3 of the previous office action with paragraph 4 of the previous office action.; and

-Newly amended claims 12-17 are not allowable over the references as applied in paragraph 4 of the previous office action contrary to what applicant purports. Applicant has amended the scope of all of their claims from those which were previously presented in the prior amendment. Thus, the examiner is not precluded from applying new art to reject applicant's claims, and making this action final.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
